

Montáž zakončovacích lišt kolem vany Instruction for Installation Bath Tub Ledge

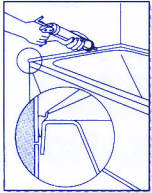

1

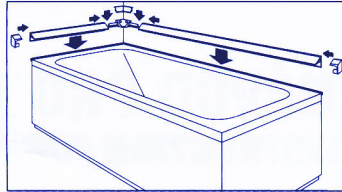

- 1) Pozorně změřte vzdálenosti mezi rohem zdi a koncem vany /A-B/
Vyznačte na lištách abě délky A a B, a odřízněte je obyčejnou pilkou.

Carefully measure the distances between the angle of the wall and the age of the tub A - B. Mark of the two lengths A and B and cut the profile strip to length using a normal hacksaw.

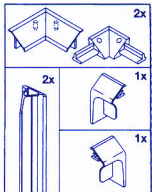

2

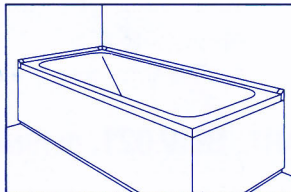

- 2) Naneste silikon podélně k hranám van dle obrázku.

Apply silicone to the recessed points along the entire length of the strip.

3

- 3) Připevněte koncovky a středový element na lišty a přitlačení je upevněte.

Fit the caps of the ends of the strips, the angular element and fit the profile to the bath-tub.
